

Uploading Evidence: Android

Student Tutorial

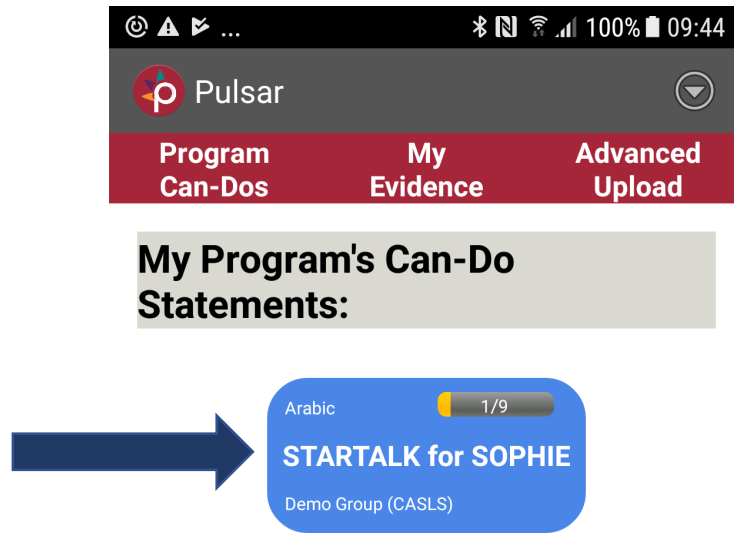

Student Tutorial: Uploading Evidence for Android

This tutorial is for students using Android devices. It features the basic method of uploading evidence to the Pulsar app. If you would like to learn about the advanced upload method, please email our team at: pulsar@uoregon.edu.

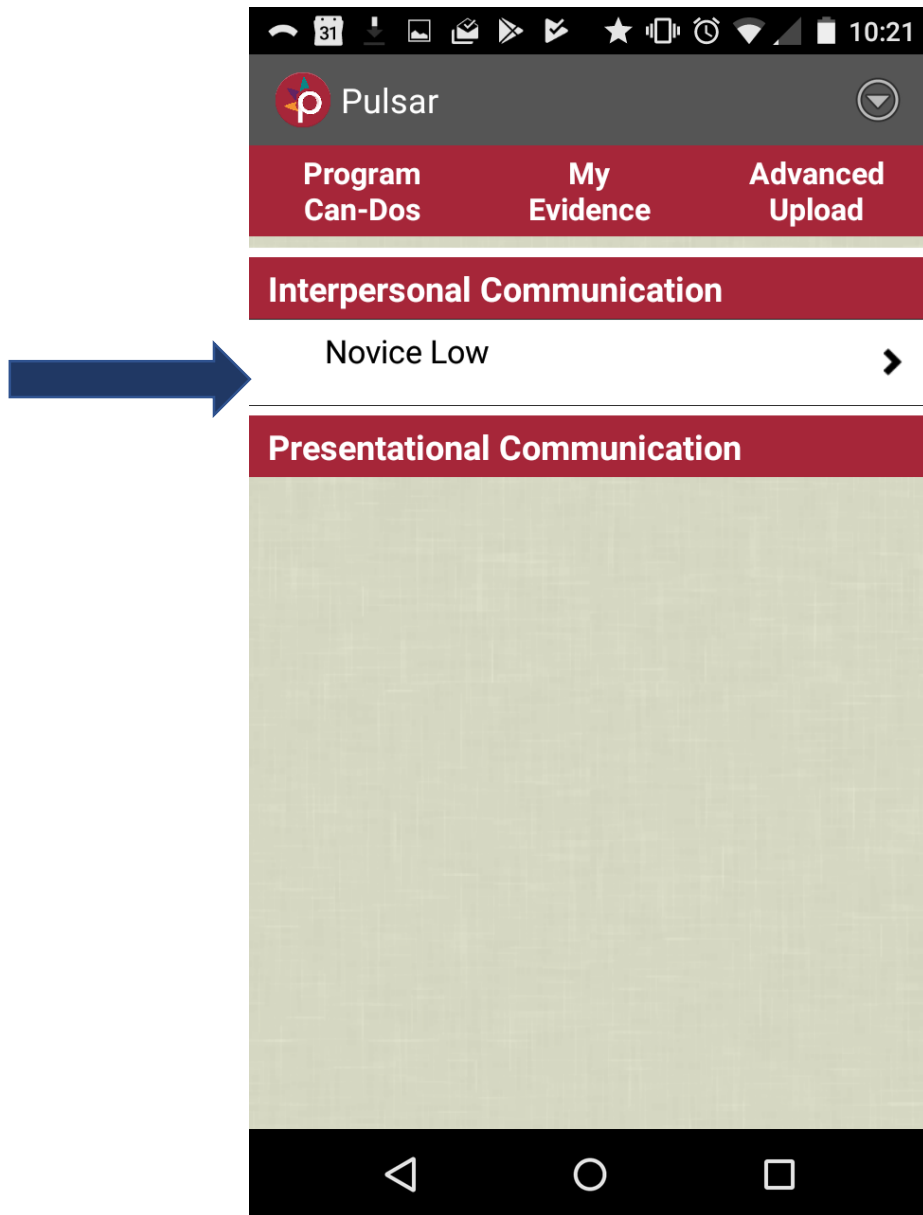

1. Open the StarTalk Pulsar App and log in. Please note that you must make an account on the web before using the app.

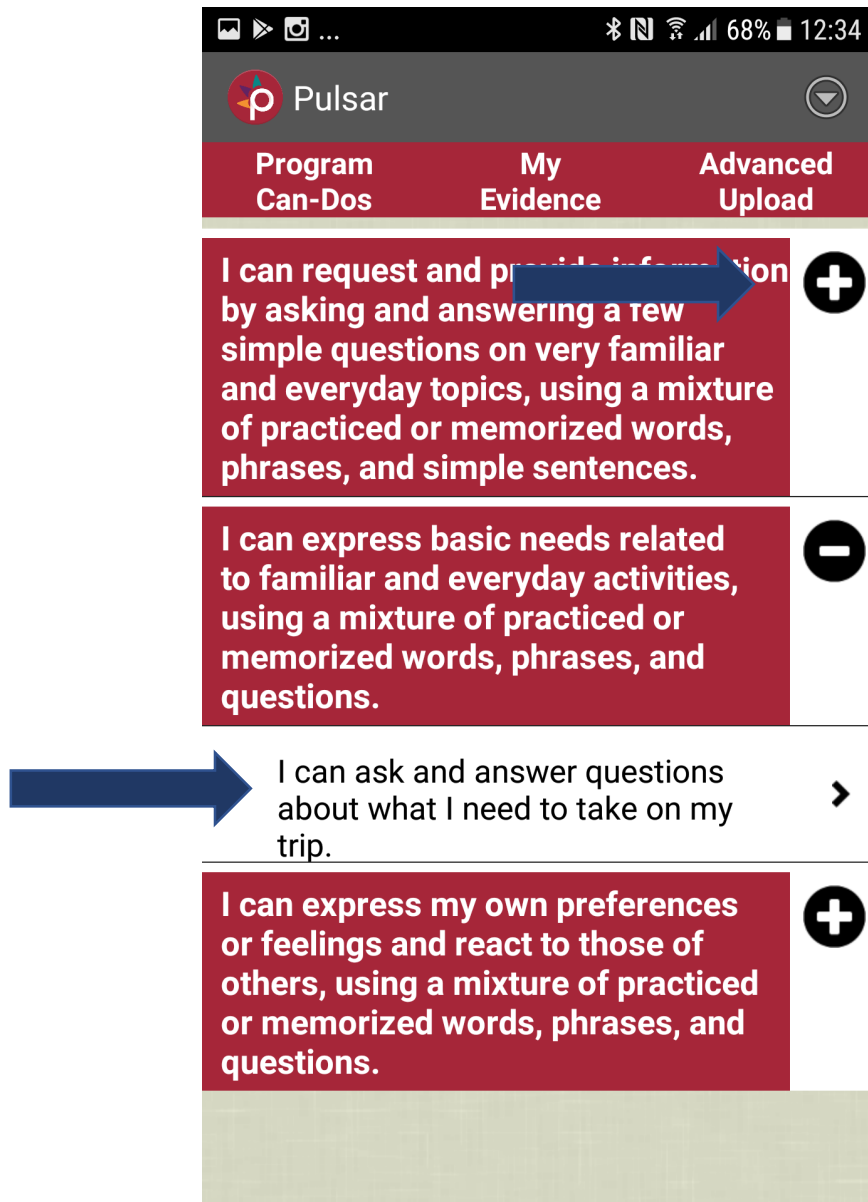

2. Tap the Can-Do Cluster in the middle of the screen.

3. Select your mode and level.

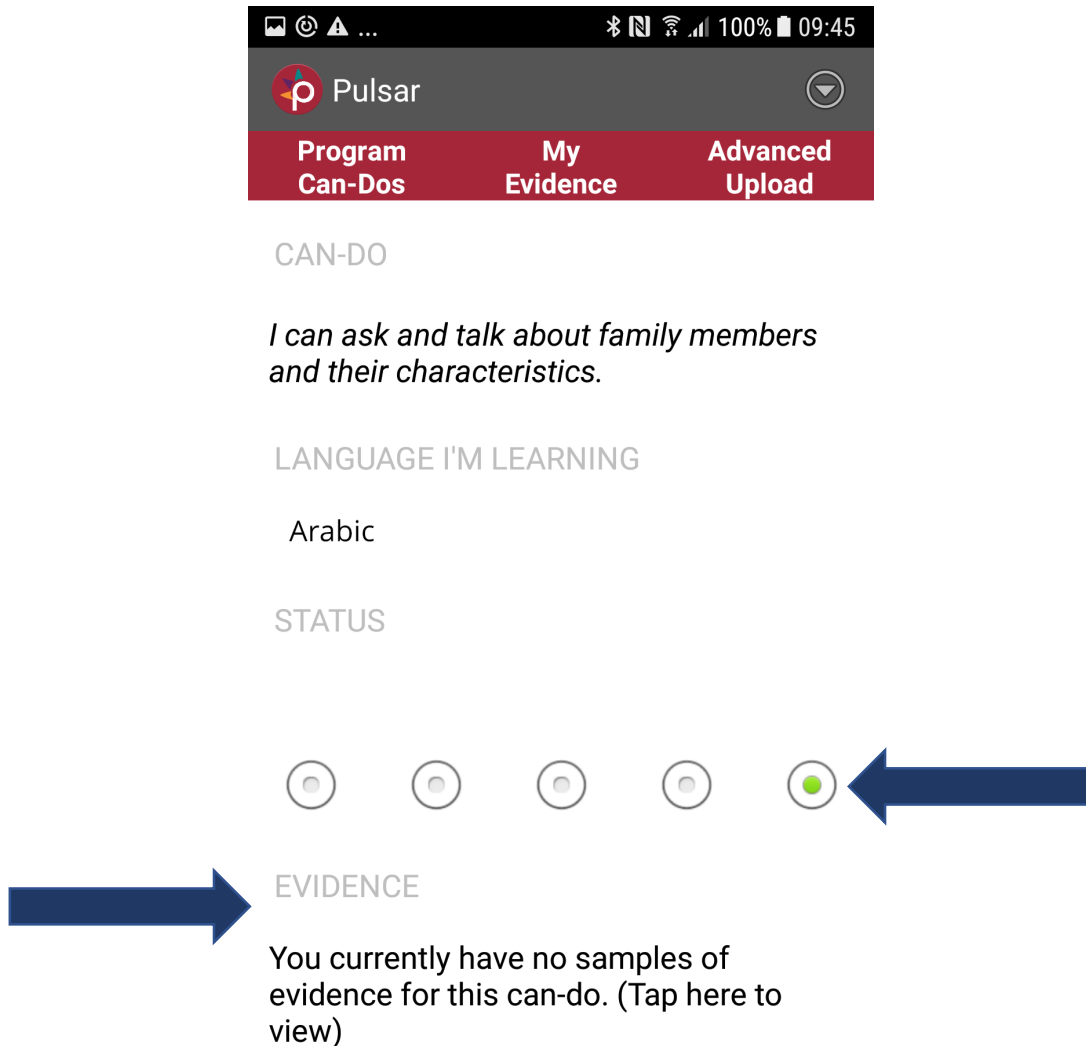

4. Next, select a proficiency benchmark (the red boxes). Tap the “+” to the right of the benchmark and select the Can-Do statement you want to upload evidence for.

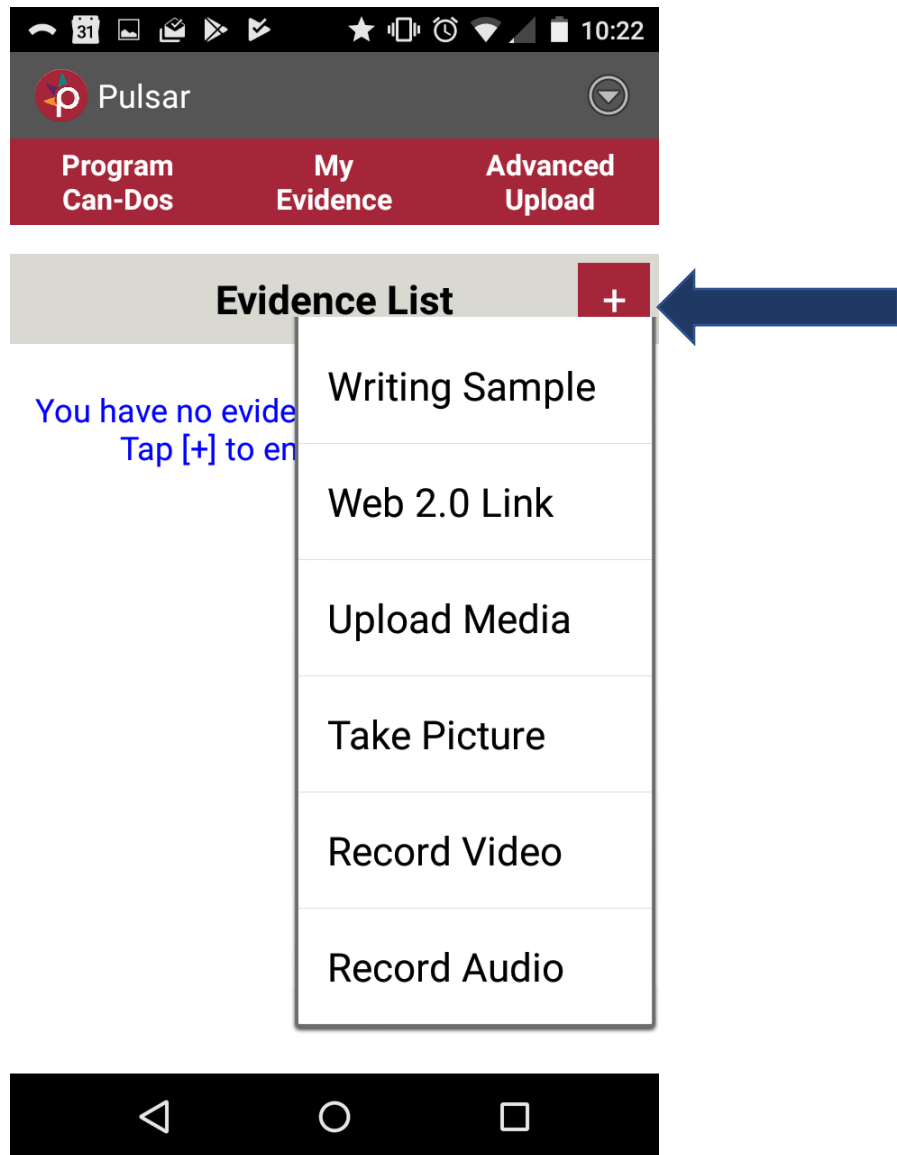

5. Update your Can-Do statement status by selecting the circle that corresponds with your level of achievement (the first is “Not started” and the last is “Can do well”).

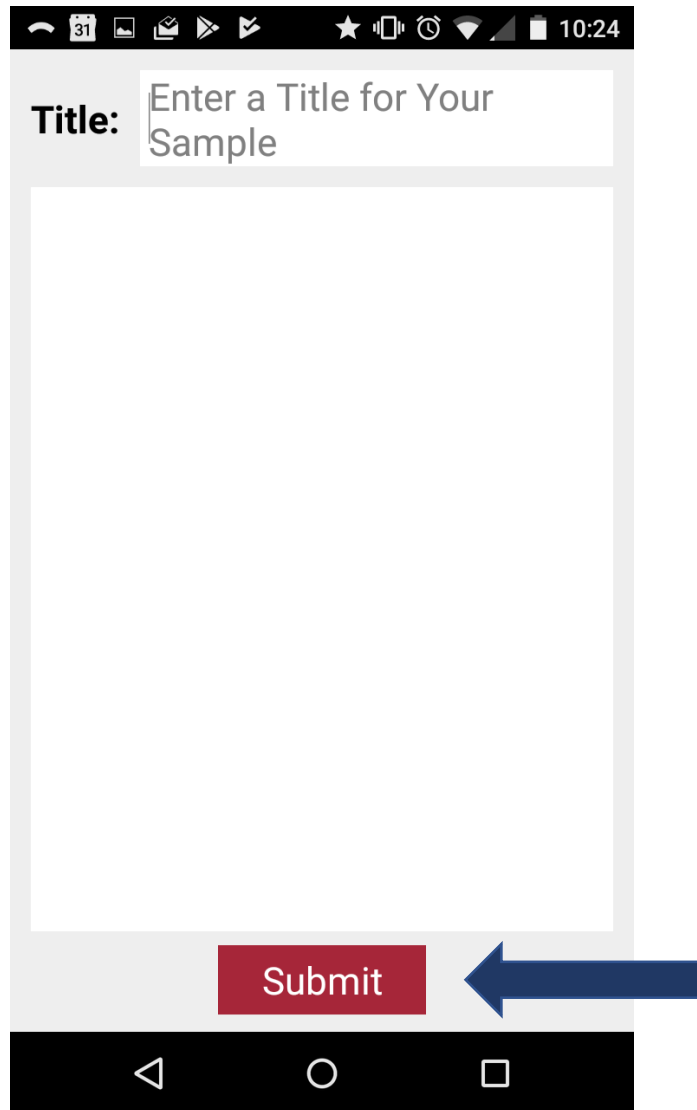

Once you have adjusted the status, tap the text under “Evidence.”

6. Tap the “+” next to “Evidence List” and select the type of evidence you want to upload.

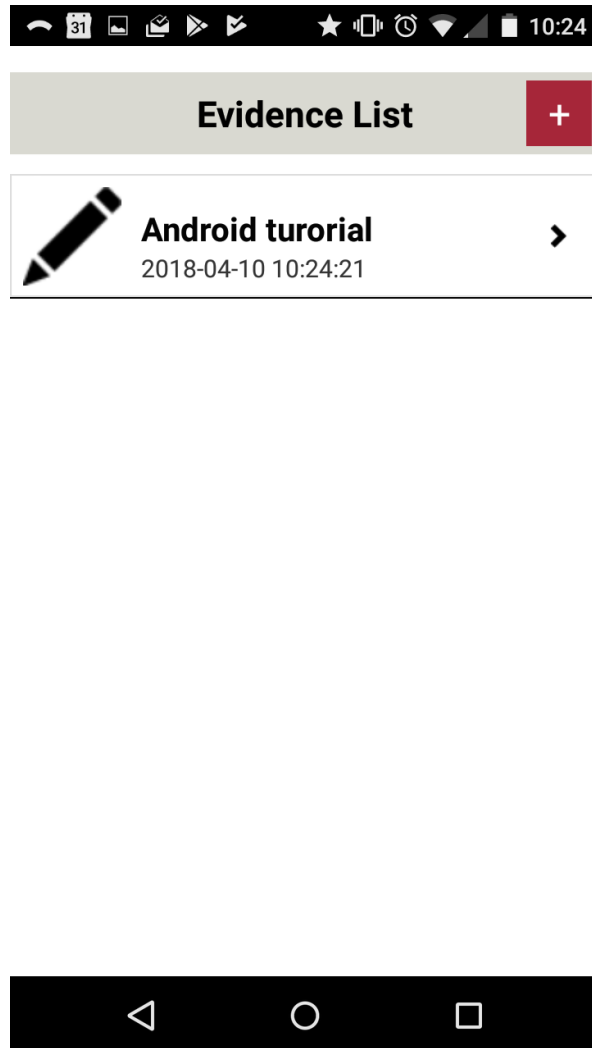

7. Enter your evidence by following the instructions. Below is an example of a writing sample upload. When you have finished uploading or entering your evidence, tap "Submit."

The screenshot shows a mobile application interface. At the top is a black status bar with various icons and the time 10:24. Below this is a light gray header area containing the label "Title:" and a text input field with the placeholder text "Enter a Title for Your Sample". The main body of the app is a large, empty white rectangular area for text entry. At the bottom of this area is a red button with the white text "Submit". A large blue arrow points from the right side of the screen towards the "Submit" button. The very bottom of the screen shows a black navigation bar with three white icons: a triangle, a circle, and a square.

8. Once you have submitted, your new evidence will appear in your “Evidence List.”

Congratulations! You have just uploaded evidence using the Pulsar app!
